P C Sai Preetam

PES1UG19CS314

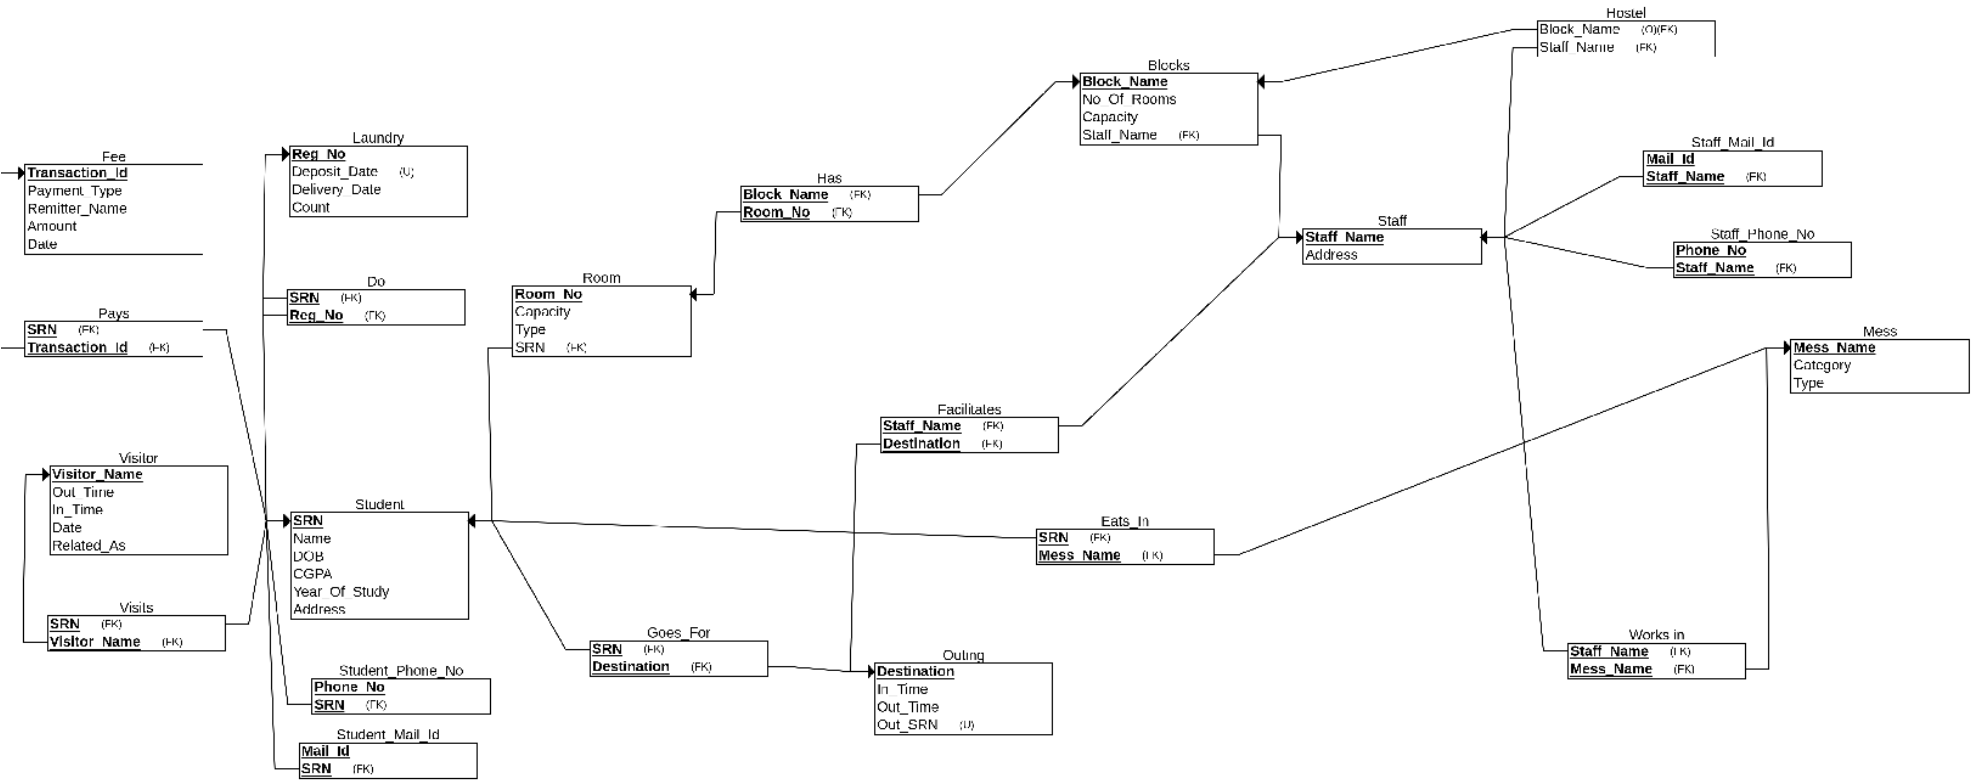

Topic : Hostel Management System

ER Model to Relational Model:

ER Diagram:

Relational Model:

DBMS Chosen

We have chosen Relational Database since our Database is relatively structured.

Creating and Populating the Database:

[illegible]

Contributions:

P C Sai Preetam : Editing the ER Diagram and creating tables
Saicharan Polishetty : Converting to Relational model and creating tables
Pavan Karthick M : Converting to Relational model and Inserting tuples

Note:

Creating file : Hostel_management_ddl.sql
Inserting file : Hostel_management_insert.sql
